18a(4). Personnel Pmts to Non-Member Consultants	\$0.00	\$5,000.00
18b(1). Travel and Per Diem to Non-Federal Members	\$0.00	\$21,000.00
18b(2). Travel and Per Diem to Federal Members	\$0.00	\$0.00
18b(3). Travel and Per Diem to Federal Staff	\$0.00	\$0.00
18b(4). Travel and Per Diem to Non-member Consultants	\$0.00	\$0.00
18c. Other(rents,user charges, graphics, printing, mail, etc.)	\$36,256.00	\$160,000.00
18d. Total	\$150,097.00	\$305,533.00
19. Federal Staff Support Years (FTE)	1.00	1.00

20a. How does the Committee accomplish its purpose?

The National Clinical Care Commission Act (Public Law 115-80) mandates that the Secretary of Health and Human Services establish the National Clinical Care Commission (the Commission) to evaluate and make recommendations regarding improvements to the coordination and leveraging of programs within the Department and other Federal agencies related to awareness and clinical care for at least one, but not more than two, complex metabolic or autoimmune diseases resulting from issues related to insulin that represent a significant disease burden in the United States, which may include complications due to such diseases. By not later than three years after the date of the Commission's first meeting, the Commission shall submit to the Secretary and the Congress a final report containing all of the findings and recommendations required.

20b. How does the Committee balance its membership?

The Commission shall consist of 23 voting members. The composition shall include eleven ex-officio members and twelve non-federal public members. The ex-officio members shall consist of the heads of, or subordinate officials designated by the heads of, the following federal departments, agencies, or components: The Centers for Medicare and Medicaid Services, the Agency for Healthcare Research and Quality, the Centers for Disease Control and Prevention, the Indian Health Service, the Department of Veterans Affairs, the National Institutes of Health, the Food and Drug Administration, the Health Resources and Services Administration, the Department of Defense, the Department of Agriculture, and the Office of Minority Health. The non-federal members shall include at least one individual from each of the following categories: physician specialties, including clinical endocrinologists, that play a role in the prevention or treatment of diseases and complications; primary care physicians; non-physician health care professionals; patient advocates; national experts, including public health experts; and health care providers furnishing services to a patient population that consists of a high percentage (as specified by the Secretary) of individuals who are enrolled in a State plan under title XIX of the Social Security Act or who are not covered under a health plan or health insurance coverage. The members are appointed by the Secretary of Health and Human Services and consideration is given to ensure that there is a broad representation of geographic areas, gender, race, ethnicity, and disability.

20c. How frequent and relevant are the Committee Meetings?

It is stipulated in the charter that the Commission will meet at least twice and not more than four times a year. These meetings will be in person, but may be conducted by teleconference or videoconference at the discretion of the DFO. The Commission will discuss topics and issues that are pertinent to its mission during these meetings. The Commission's deliberations during the meetings will be critical for developing the report

that must be submitted to the Secretary and Congress to comply with the authorizing statute.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The National Clinical Care Commission is a non-discretionary federal advisory committee. Establishment of the Commission was statutorily mandated by Congress. The mandate to establish the Commission can be found in the National Clinical Care Commission Act (Public Law 111-80). This legislation was enacted to evaluate and make recommendations regarding improvements to the coordination and leveraging of programs within the Department and other Federal agencies related to awareness and clinical care for at least one, but not more than two, complex metabolic or autoimmune diseases resulting from issues related to insulin that represent a significant disease burden in the United States, which may include complications due to such diseases. The statute stipulates that the Commission will be comprised of representatives of appropriate federal agencies and non-federal entities who have expertise and knowledge about the topics and issues that are pertinent to the mission of the Commission. The membership composition will include diverse disciplines and views.

20e. Why is it necessary to close and/or partially closed committee meetings?

All meetings of the Commission will be open to the public unless it is determined by the Secretary or designee that a meeting will be closed and/or partially closed because the topics to be discussed are confidential and/or sensitive in nature.

21. Remarks

The charter for the National Clinical Care Commission was approved by the Secretary for Health and Human Services and filed with the appropriate Congressional committees and the Library of Congress on April 3, 2018. A notice was published in the Federal Register to inform the public that the Department has taken this action. The notice served to announce that the Department was seeking nominations of individuals who were interested in being considered for appointment to the Commission. Applications were reviewed, and individuals were selected; none were appointed by the end of FY18. The inaugural meeting is scheduled for early FY19.
